## **MEET THE MCMURRY BOARD OF TRUSTEES**

---

A strong and dedicated Board of Trustees is McMurry University's most vital guarantee of strategic success.

The Board of Trustees appoints and directs the president who, in turn, manages McMurry University. The board provides vital policy leadership and oversight in critical areas as well as oversees the financial performance of the University. Its members are long-range planners who help define the University's philosophy. They offer their knowledge and experience as well as financial support to help ensure the success of the University in its mission and commitment to Christian higher education.

McMurry is fortunate to have an exceptionally gifted and dedicated board. Each trustee has contributed in significant ways to make McMurry the wonderful institution it is today.

The role of a trustee involves serious work and a significant time commitment. The board meets four times a year for one and a half to two days, usually on campus, in October, February, April and June. A strong committee structure provides the framework for the board to oversee the important functions for which it is responsible.

The trustees are a highly accomplished, dedicated and energetic group of people who share an uncommon loyalty for, and commitment to, McMurry and its status as one of the best universities of its kind in the country.
